Dear President Nieto,

On behalf of the PZZ "KADRA" which represent mines' managers and supervision in Poland, I ask you for draw biggest attention to the employees situation exist in Mexico. The systematic violation of workers' rights occurs across all industrial sectors and regions of Mexico. The international trade union movement mobilizes each 18-24 February to inform members and policymakers in their home countries of the need for change. The date marks the terrible Pasta de Conchos mine accident in 2006 that killed 65 miners. The refusal of the Mexican government and employer Grupo Mexico to recover the bodies of 63 miners who remain entombed is widely known to be an effort to cover up the real causes of the disaster and the inadequacy of rescue efforts. The 65 Pasta de Conchos miners killed by "industrial homicide" symbolize the government-employer complicity in Mexico that is abusing workers' core rights daily.

Dear President, you must intervene to ensure the swift and safe return of Los Mineros' General Secretary Napoleon Gomez Urrutia, to Mexico from Canada where he is in exile due to bogus legal charges supported by the outgoing Calderón regime. Trade Unions expect from you intervene to bring labour peace and justice to key strikes at Grupo Mexico mines in Sombrerete, Cananea, and Taxco, where the company has forced Los Mineros members to strike for over five years. Our Union stands with Los Mineros in they demand for a fair and just treatment of employees.

Trade Union Alliance "KADRA" are asking you for action on:

- The outstanding ILO complaint no. 2694 on Protection Contracts
- Pasta de Conchos justice
- Rejecting the recent regressive labour law reforms

I ask you for urgent intervention and I wish a lot of success in the work for social dialogue in Mexico.

Sincerely,

Dariusz Trzcionka  
President of PZZ „KADRA”, Poland
